

# ROULETTE

Roulette, the game associated with the plush gambling capitals of Europe, is right at home at Cypress Bayou Casino Hotel! It's exciting and easy to play.

## HOW TO PLAY

Play begins when the players have placed most of their bets by putting their chips on the numbered layout. The dealer spins the Roulette ball in the opposite direction of the spinning wheel. Bets may be placed until the dealer announces, "No more bets." After the ball falls onto a number on the wheel, the dealer places a marker on the winning number on the table layout and pays the winning bets.

## CHIPS

Roulette chips are very different from other casino chips because they vary in denomination and color. Each player receives a different color chip. The chips are purchased in stacks of twenty. For example, if you would like your chips to be worth \$1 each, then you would purchase a stack for \$20.
